- Problem Statement Title - Secure
Data Wiping for Trustworthy IT Asset
Recycling
- Theme - Miscellaneous
- PS Category- Software
- Team ID- 65891
- Team Name: CodeBreakers!

CodeBreakers!

BreakNWipe

A one-click solution to

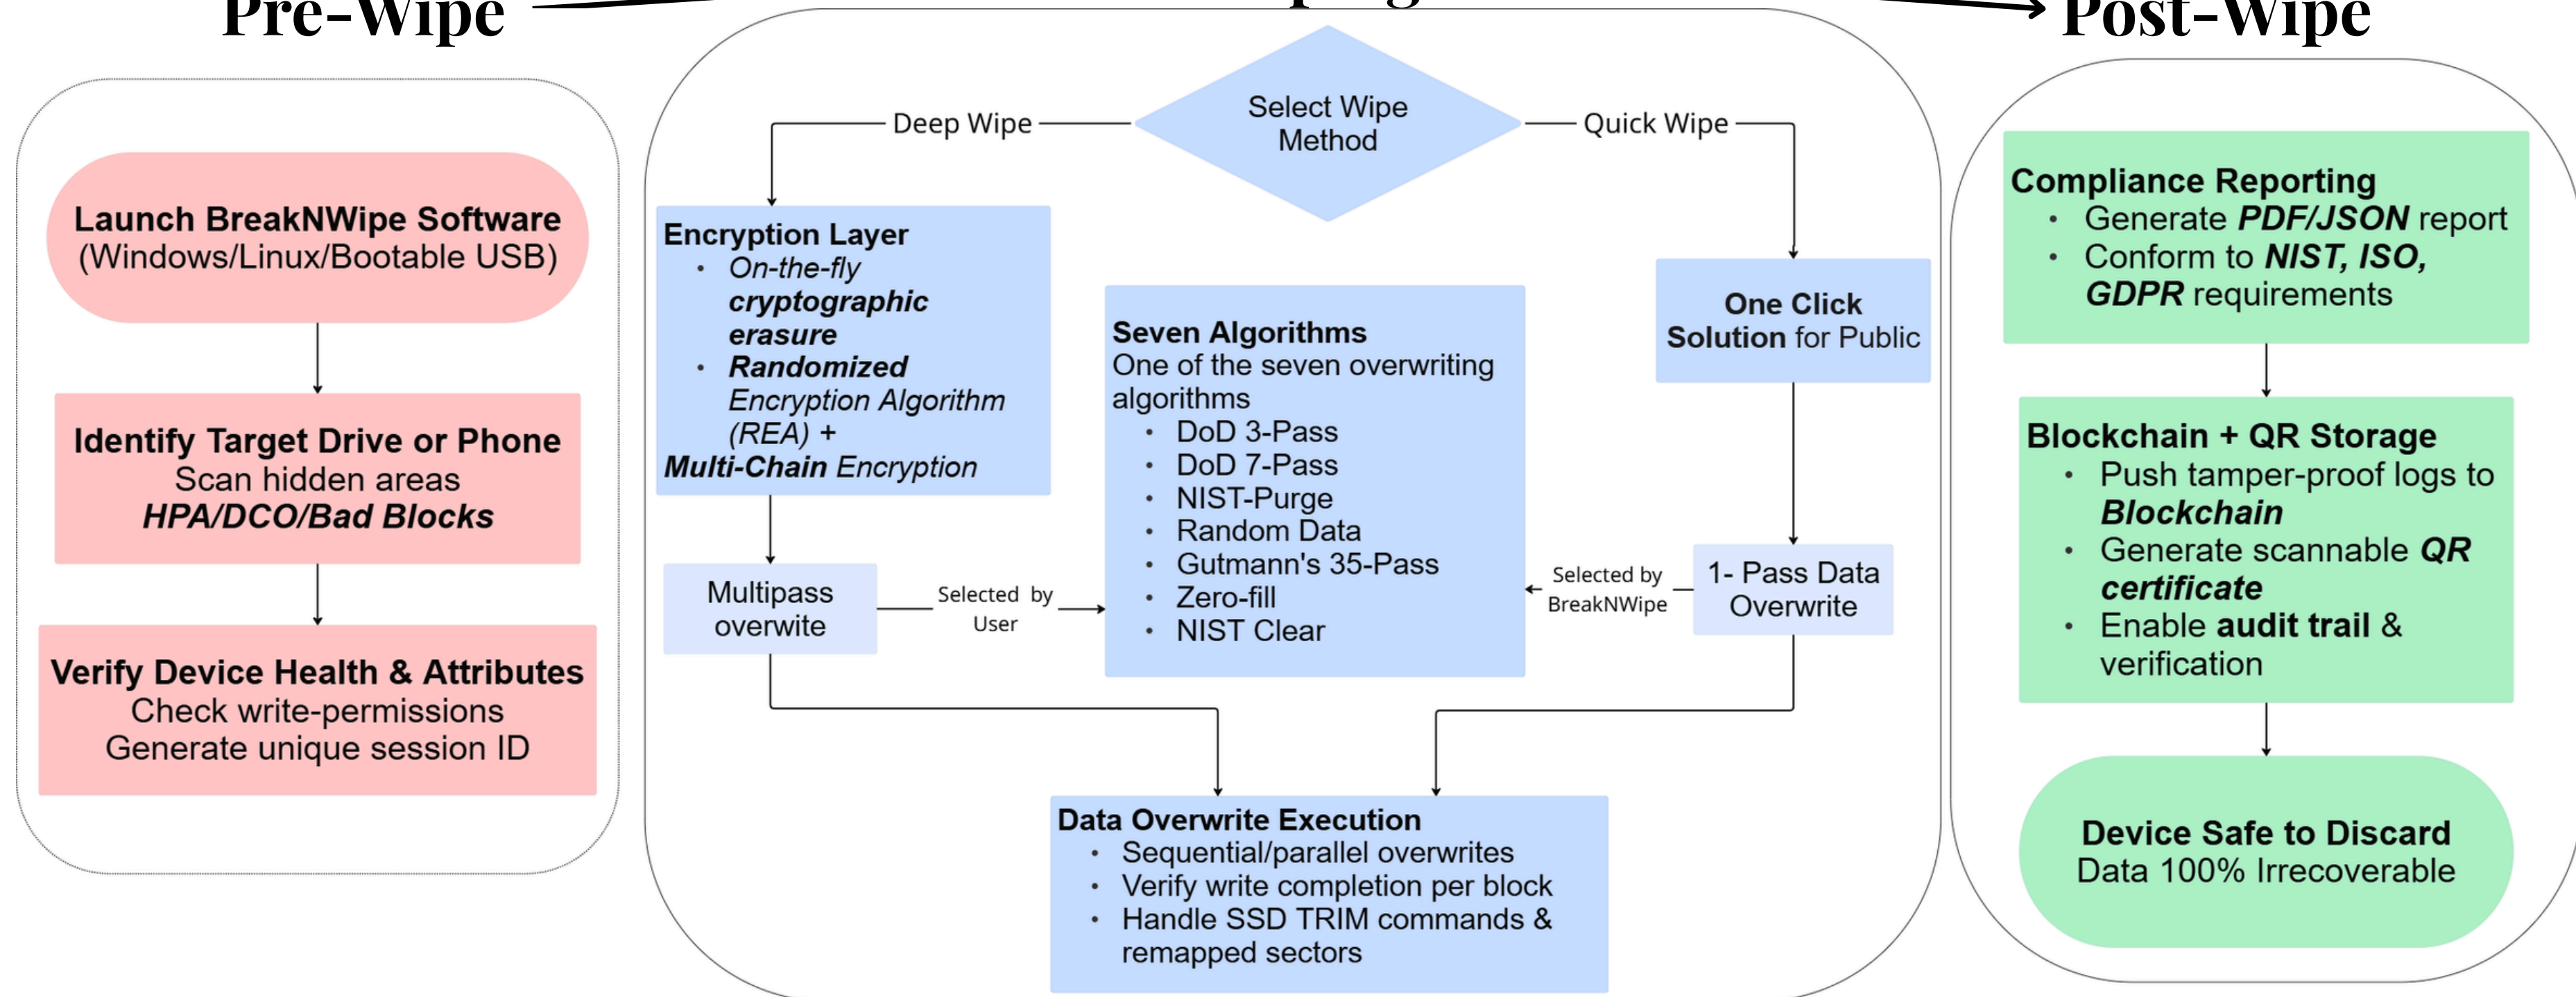

Break the data through **randomized encryption** and **Wipe** it leaving no traces behind.

Pre-Wipe

Wiping

Post-Wipe

CodeBreakers!

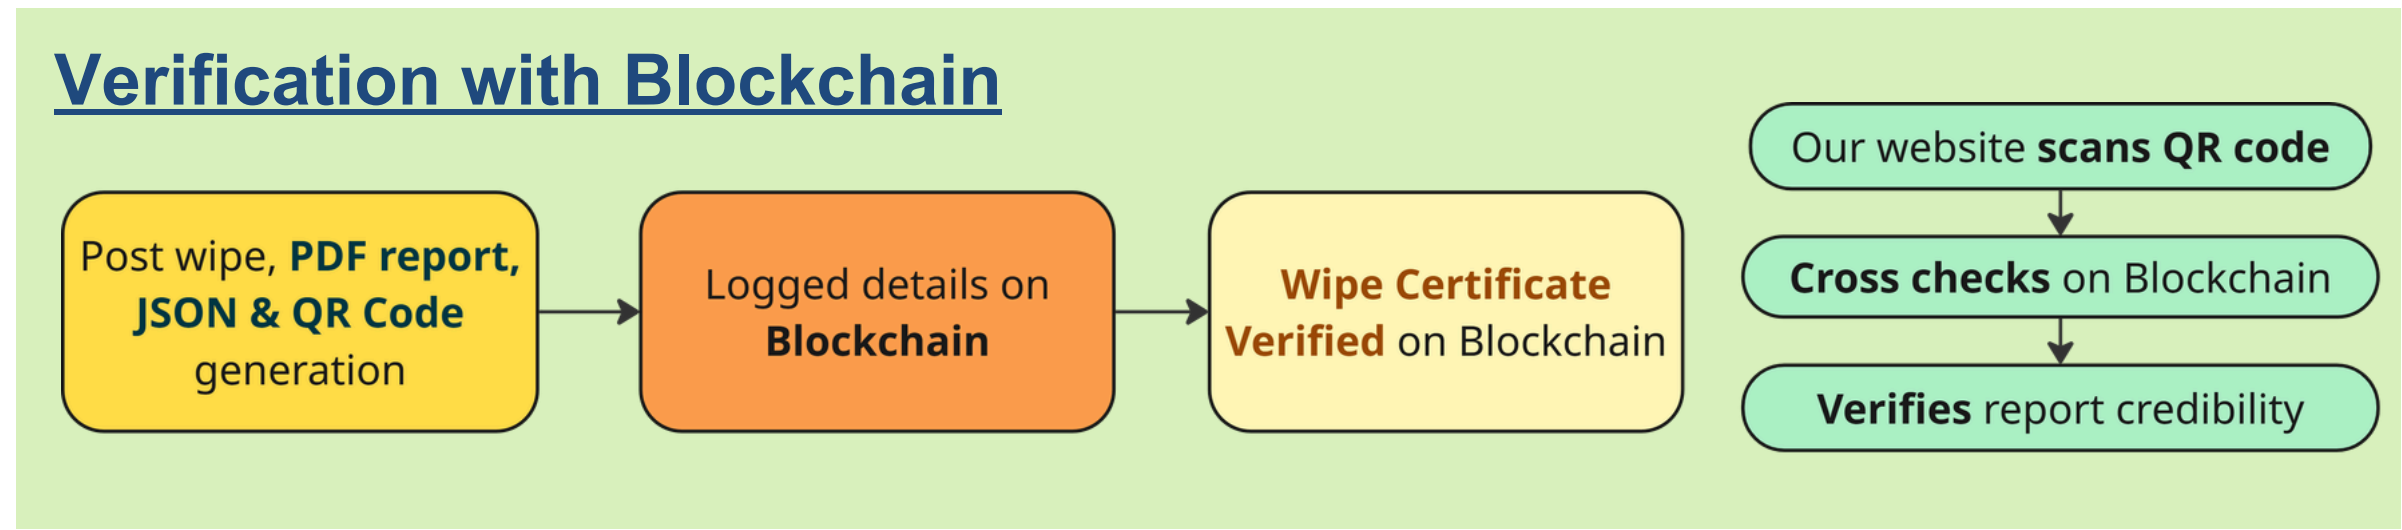

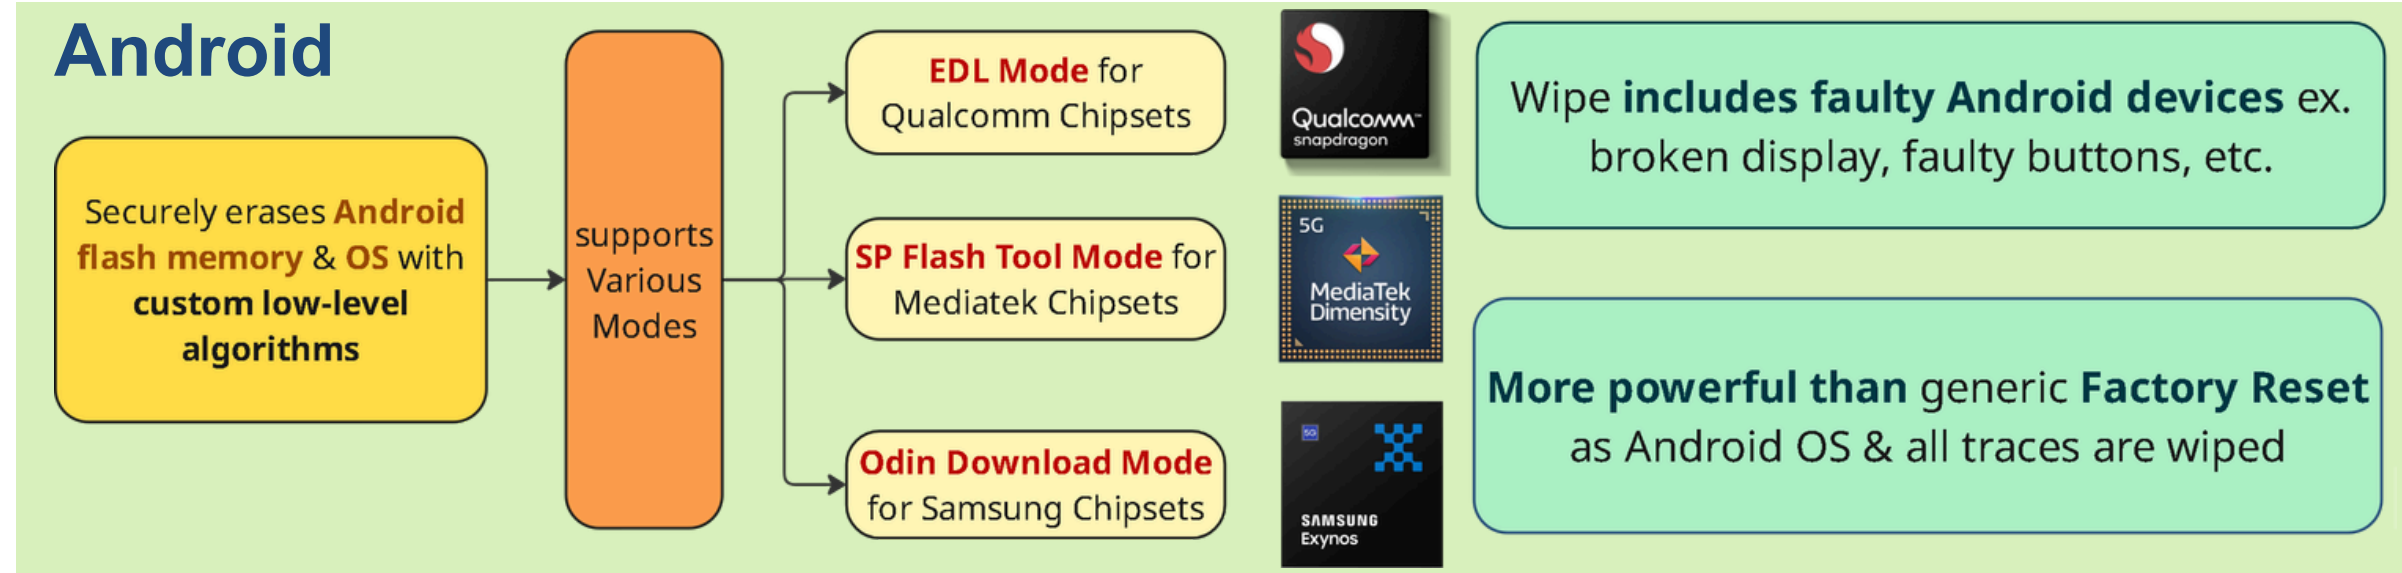

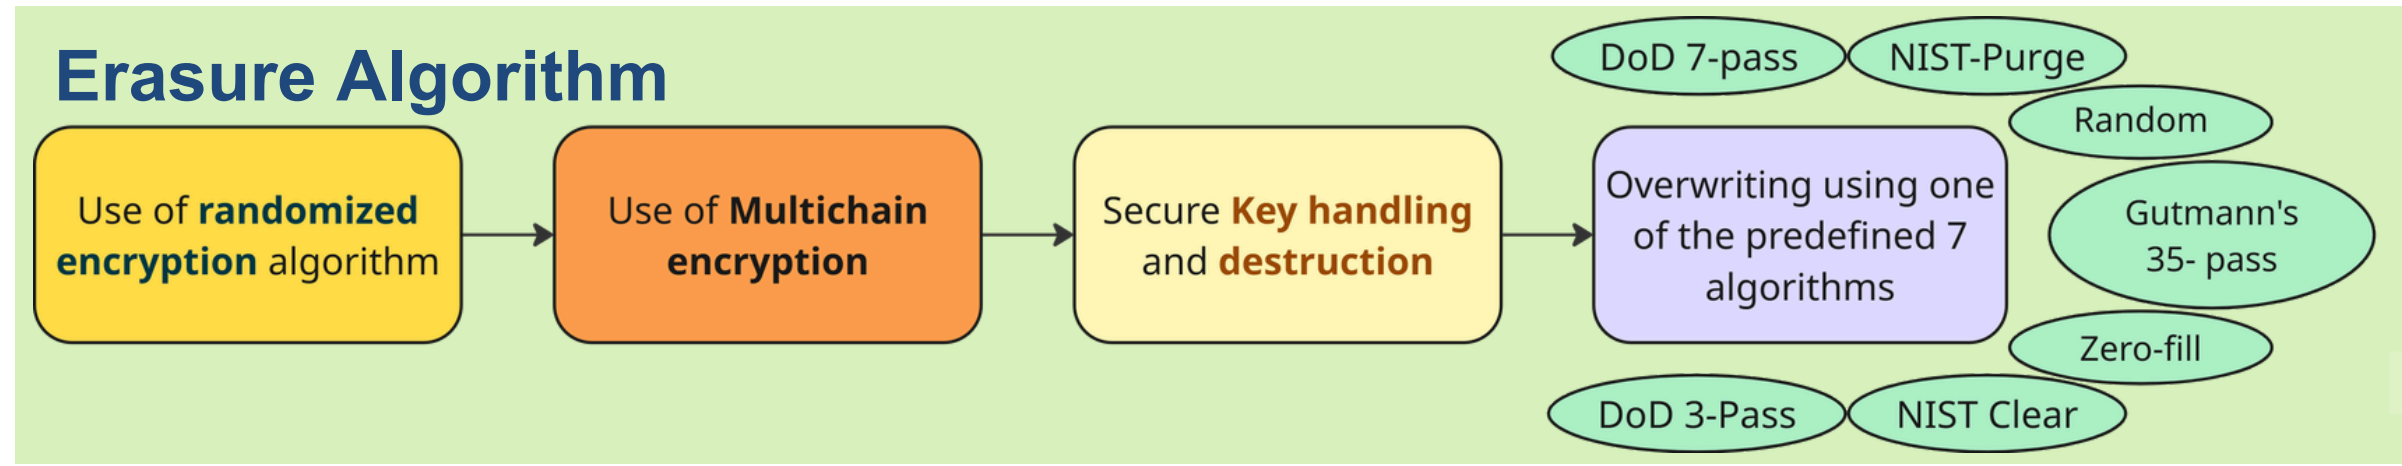

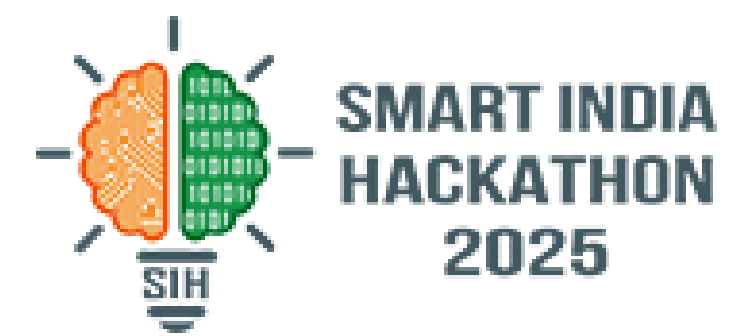

Why are we better?

Technical Features

HPA/DCO	Erase hidden partitions
Compliance	NIST 800-88, IEEE 2883-2022
Offline Support	Cross Platform
Custom OS	Bootable ISO/USB
Error Handling	Incomplete Wipe Handling
1-click	GUI for general public

TECHNICAL APPROACH

CodeBreakers!

FEASIBILITY AND VIABILITY

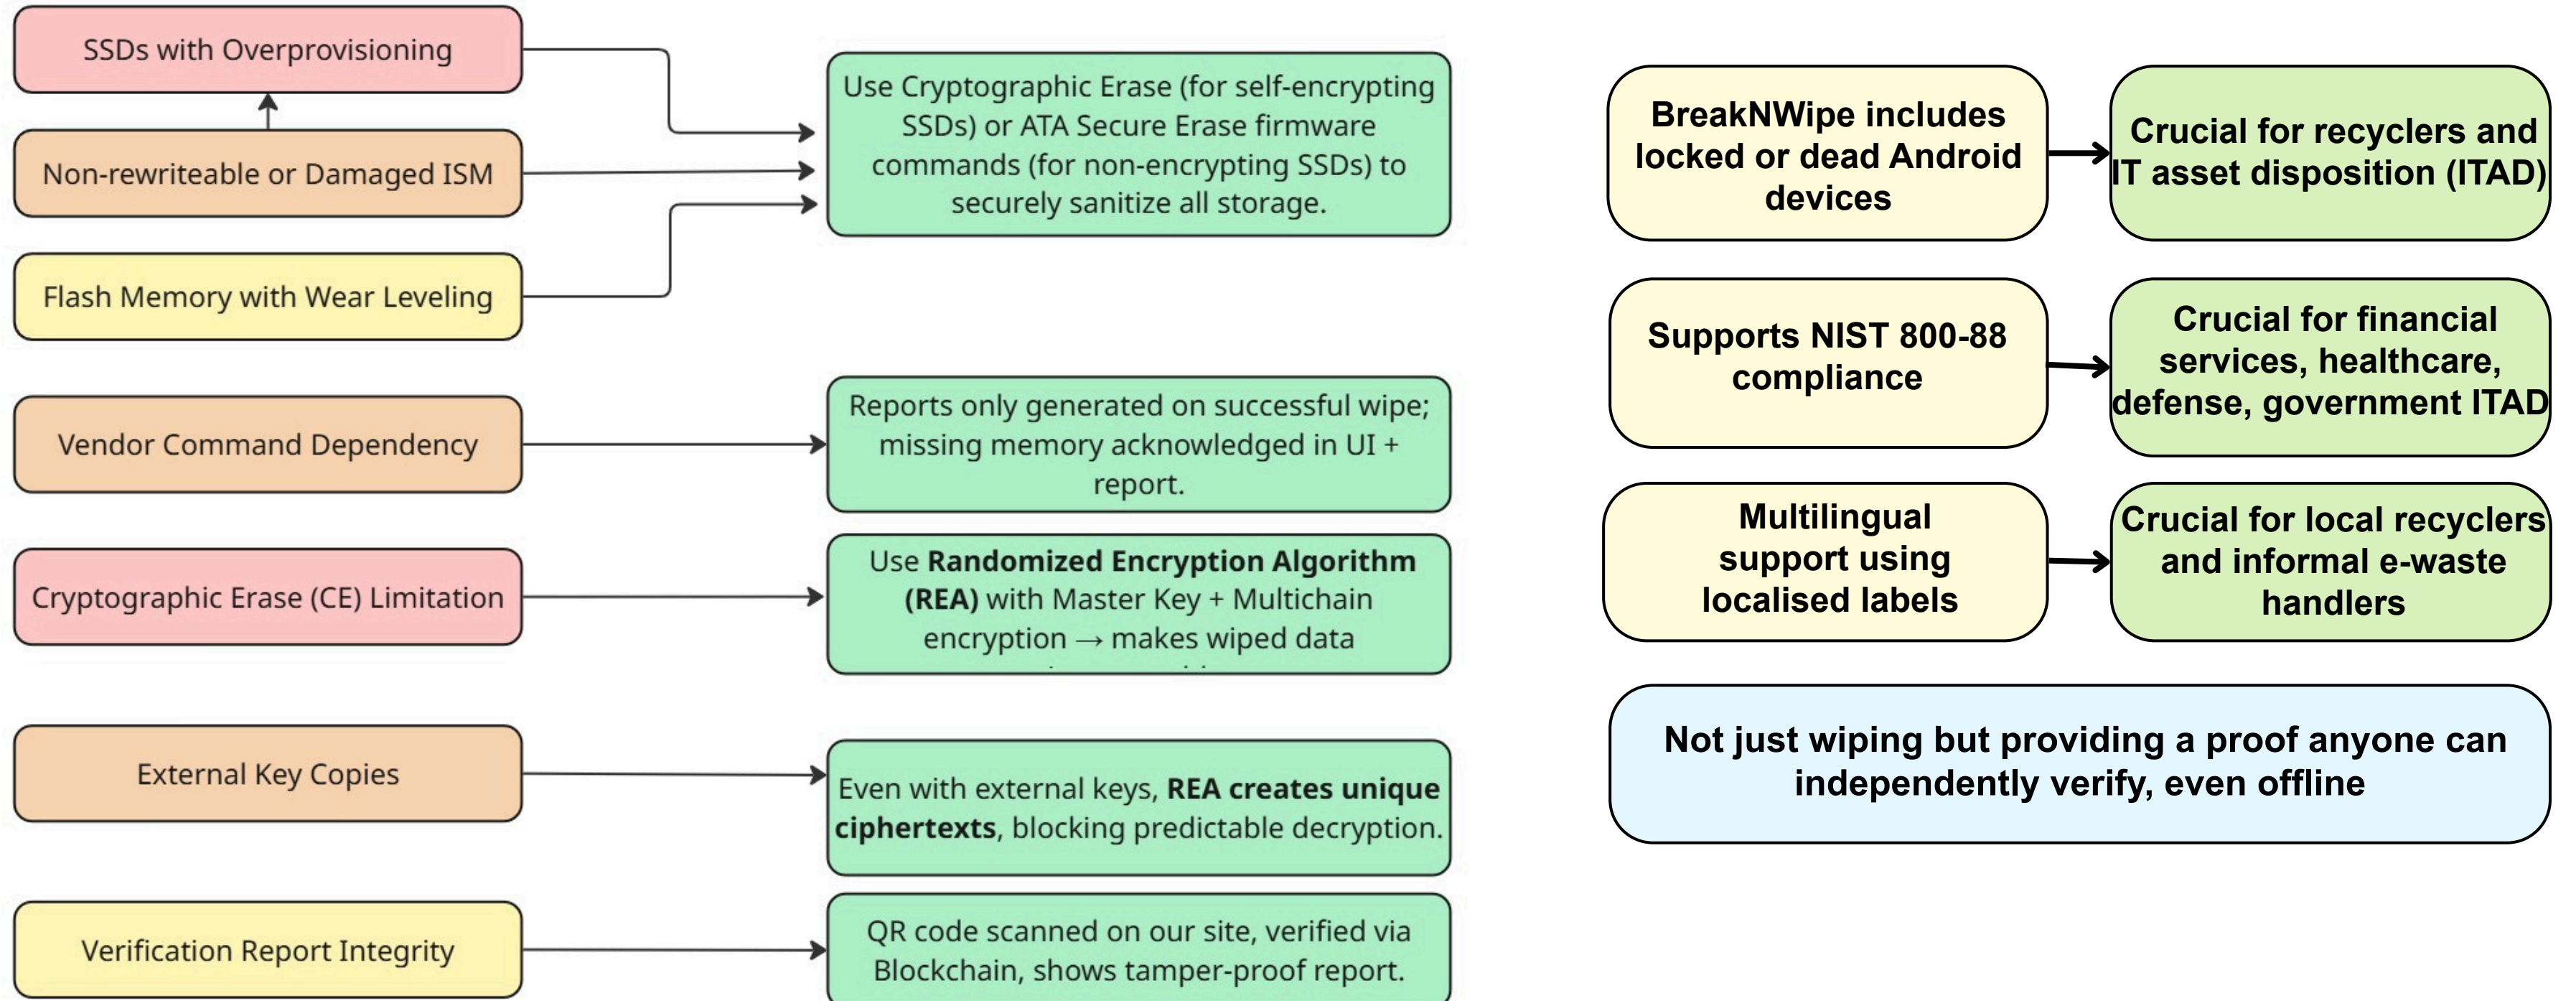

SMART INDIA
HACKATHON
2025

Feasibility Challenges Identified in NIST SP 800 88

Corresponding Solutions and Mitigation Strategies

Sustainable Development Goals

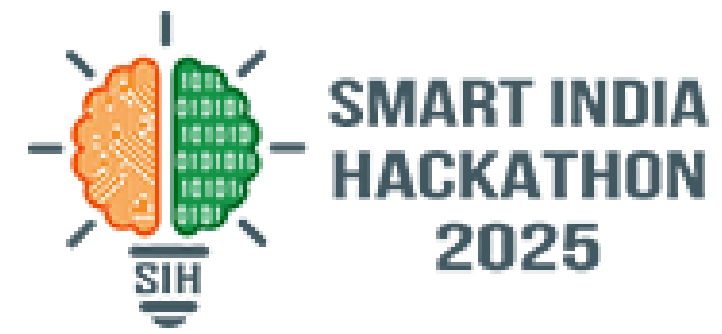

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

13 CLIMATE ACTION

IMPACT AND BENEFITS

Users & Organisations

Environmental & Economic

ITAD/Recyclers

Lowers municipal **costs** from improper disposal

Unlocks **₹50,000 crore** in hoarded **IT assets**

Reduces dumping and **toxic e-waste** exposure

Lowers compliance **risk** for recycling

Tamper-proof verification **simplifies** liability **claims**

Encourages **higher recovery** rates

One-click flow for **non-tech** users

Wide usage via localized labels

Prevent data Breaches & **Lower legal cost**

BlockChain

Transparency

Report is accessible & verifiable by all participants

Immutability

The verified report cannot be tampered

Auditability

Timestamped report for historical documentation

Trust

Blockchain's auditable records support regulatory reporting, compliance checks, and real-time audits.

Lower Carbon Footprint

Reduces paper for manual documentation and duplicate audits.
